

## NUX DM-7 / DM-7X Sound Bank Update Guide

Please follow the steps below to update your sound bank.

(You can also refer to a video tutorial here: <https://www.youtube.com/watch?v=zVAAiKMWWIA> )

1. Connect the drum module to a Windows computer, using a quality cable.

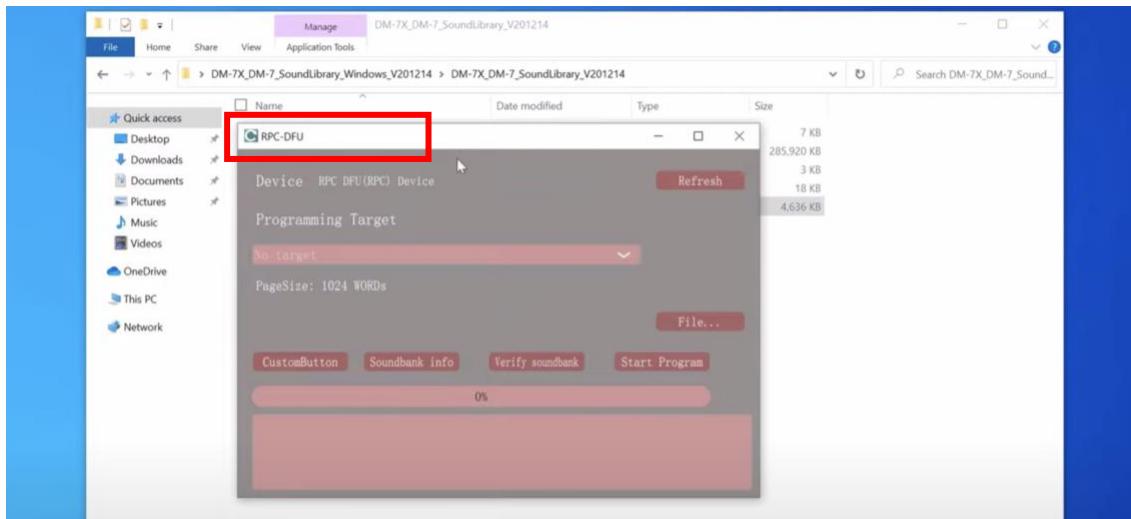

2. Press and hold the TOMS/CYMBALS and DRUM OFF buttons and turn on the Power at the same time...

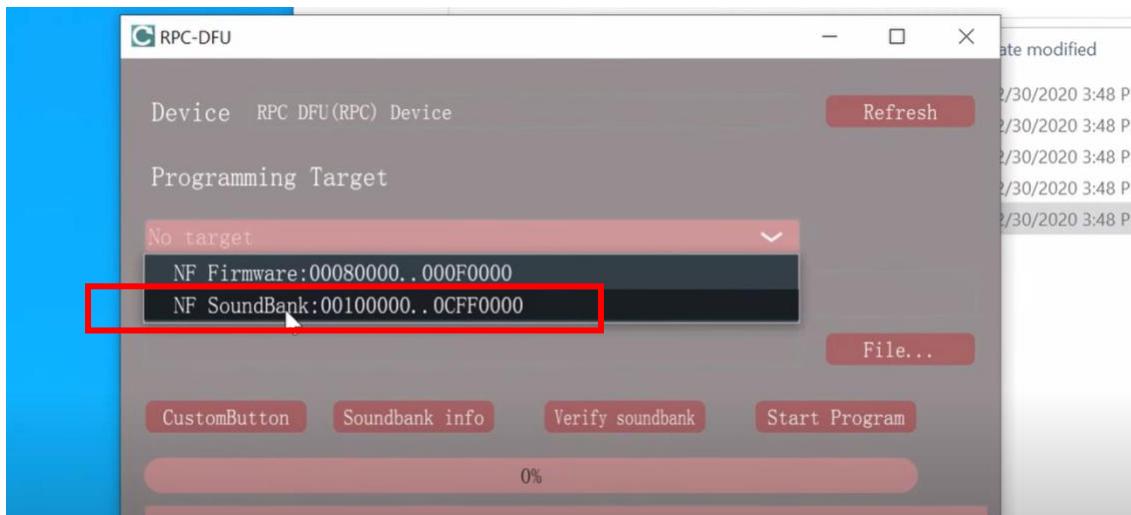

... until it shows “FACVOICE UPDATE START READY!” on the drum module.

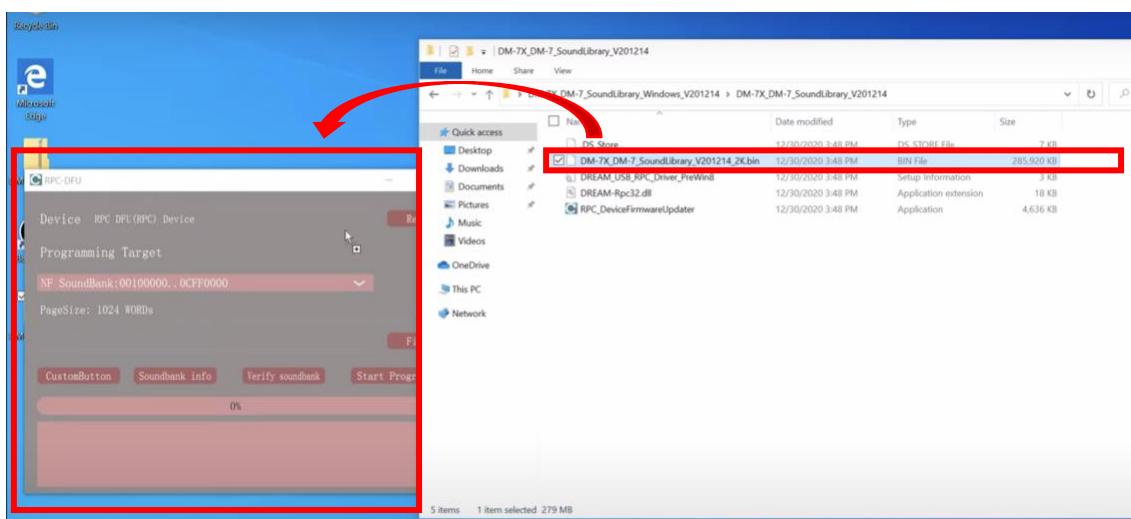

### 3. Run RPC-DFU.exe on the Windows computer.

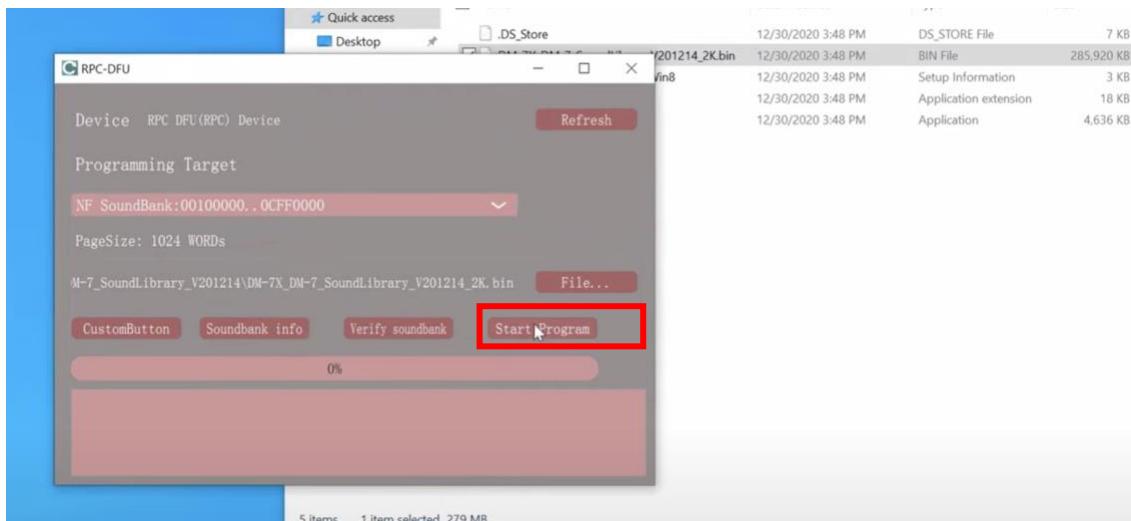

### 4. Under "Programming Target", select "NF SoundBank". (Please note this step is very important.)

### 5. Drag and drop the "DM-7X\_DM-7\_SoundLibrary\_Vxxxxxx\_2K.bin" file into "RPC-DFU".

## 6. Click "Start Program"

## 7. The update is completed when it shows 100%. Restart the drum module and enjoy it!
